EXECUTIVE DATASHEET · AI CONTRACT INTELLIGENCE

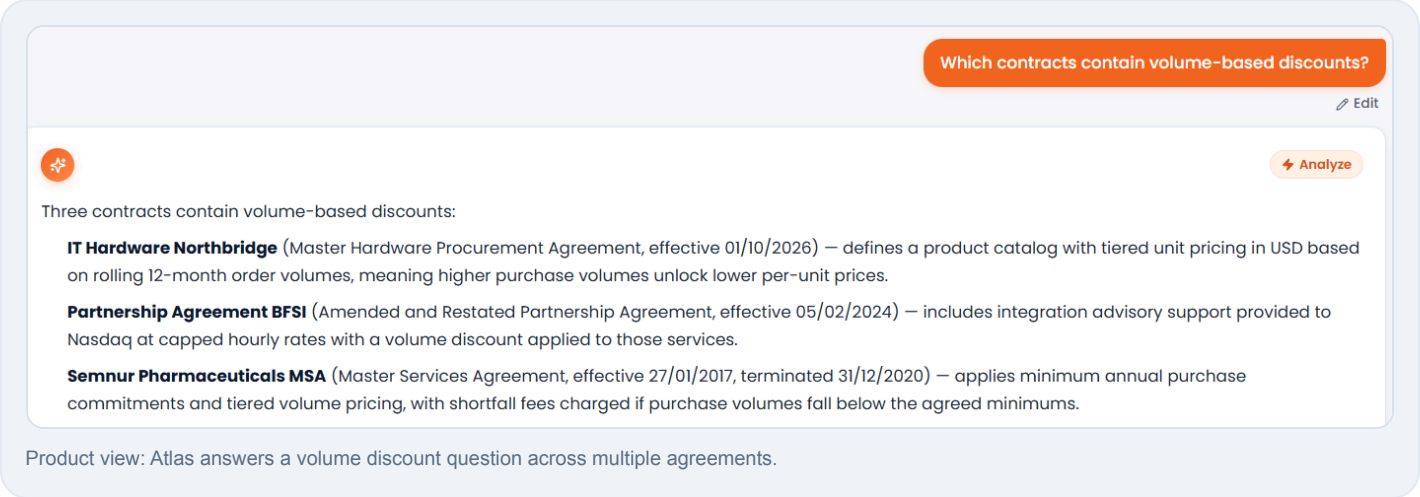
Aavenir Atlas

Ask your contracts. Get answers.

Interrogate your entire contract portfolio in plain English. Get answers backed by the exact clauses, even across amendments.

Ask about pricing, renewals, obligations and risk across uploaded agreements or your connected repositories. Atlas brings the relevant terms and their sources together so your team can verify the answer and decide what to do next.

See a question become an answer



Product view: Atlas answers a volume discount question across multiple agreements.

Turn contract answers into business value

Recover missed revenue

Find price escalation rights and the notice needed to exercise them.

Capture negotiated savings

Identify earned rebates, service credits and discounts worth pursuing.

Protect your options

Uncover renewal deadlines and expiring rights before the window closes.

Ask in plain English. Verify the clause. Act with evidence.

Answers your team can verify

- **Source contract and clause references**
- **Agreements and amendments read together**
- **Role-based access**
- **Encryption in transit and at rest**
- **Account-level data isolation**

Questions that lead to better decisions

Start with the business decision. Atlas finds the relevant agreements, terms and source clauses across your portfolio.

REVENUE

Which CPI-linked price increases have we not exercised?

Identify eligible agreements, escalation terms and notice deadlines to assess potential uplift.

SAVINGS

Which rebates or service credits can we claim?

Find entitlement clauses and claim conditions to support recovery.

RENEWALS

Which contracts require notice before we can renegotiate or exit?

See binding notice windows and avoid losing commercial options.

PRICING

Where are we paying different rates for the same service?

Compare contracted pricing to support supplier negotiations.

RISK

Which agreements contain uncapped liability?

Locate exposure and the exact wording your legal team needs to review.

OBLIGATIONS

Which supplier commitments are due or overdue?

Surface commitments and deadlines so owners can follow up with evidence.

Connect the answer to the dollars

Ask: "Which agreements allow a 3% price increase, and what notice must we give?"

$1,000,000 eligible annual revenue × **3%** = **$30,000 potential annual uplift**

Atlas surfaces the rights and notice requirements. Your team validates eligibility, gives the required notice and pursues the increase.

Illustrative calculation using assumed values; not a customer result or savings guarantee. Identified opportunity becomes realized value only after the required commercial actions.

Bring the question your current systems cannot answer
